Re: 4-lane divided highway from Potter to Girdwood be re-established in the STIP

Dear John,

This letter is asking for the reinstatement of the Seward Highway improvements south of Potter Section House from the "STIP" (State Transportation Improvement Plan). It was explained that it is now up for review by the agency. This is a very serious issue for all Alaskans who use the road for various reasons.

Having a Four Lane Divided Highway between Anchorage and Girdwood will vastly improve the safety of all Seward Highway users, whether traveling to Girdwood or further south to the Kenai Peninsula.

This is an essential issue that affects all Alaskans. Please reinstate the Seward Highway improvements to the STIP.

Sincerely,

*Lottie Michael*
